

# The First Quality Selected, Certified Angora Fibre

## Caregora™

A High Performing Natural Product that combines Quality, Innovation & Certified Responsibility

### Premium Features Quality & Functionality

- Precious fibre, finer than cashmere
- Exquisitely soft, delicate and lightweight
- Fine halo and luxurious silky texture
- Warmer, airy, and lighter than wool
- Comfortable to wear and easy to care for
- Extremely functional, easy to dye and blend with other fibres, so extending its use and aesthetic
- Highly versatile, suitable for a wide range of textile and fashion applications
- Best heat retention of all natural fibres
- Pain easing function in medical treatment due to its strong electrostatic charge
- High moisture management, Non-odor absorbing

### Certification UL certified that **Caregora™** complies to:

- 98/58/EC Directive of the **European Community on animal care and welfare.**
- the Animal Welfare Code promoted by the **DEFRA** (British Department for Environment, Food and Rural Affairs)

**UL** is an American independent product safety testing and certification organization offering quality inspection programs on key strategic businesses, including **Textiles and Apparel.**

**UL** provides critical checks throughout the production cycle to ensure that the manufacture, distribution and sale of textile products comply with industry safety and performance standards, locally and globally.
